SUMMARY

I am a **Final year** student , pursuing a Bachelor's degree in Computer Science, with a focus on **Full-stack developement** and **DevOps**, at **Comsats Islamabad**. Throughout my academic journey, I have gained a solid foundation in front-end and back-end web technologies and have open-sourced projects on **GitHub**. Currently I am working on **DevOps** from the past 6 months. I have containerized a few applications using docker and uploaded on **Dockerhub** and created CI/CD pipelines to automate workflows using **Jenkins**. I am looking for opportunities to contribute in real world industry projects.

PROFESSIONAL EXPERIENCE

MERN-Stack Intern   01/2024 – 03/2024
Infiniti Software 🔗

Web Developer Intern   10/2023 – 11/2023
CodSoft 🔗

Web Developer Intern   09/2023 – 10/2023
Interns Pakistan 🔗

SKILLS

Docker		React.js	
Jenkins		Node.js	
Kubernetes		React-Native	
AWS		Git/Github	

PROJECTS

Full Stack Application 🔗
A complete CI/CD Pipeline for a Full Stack Application Using SonarQube, OWASP Dependency Check, Docker, and Trivy.

Smart School 🔗
A docker image for a full-stack school management system created in MERN stack.
